

MOUNTING THE REAR CAMERA

STEP 1:

For the rear camera image to be displayed and recorded correctly (via the App), please ensure the rear camera mount (which adheres to the rear windscreen) is mounted from the right, when inside the vehicle (refer to FIG 1 below)

FIG 1

STEP 2:

Ensure the barrel is turned so that the lens is not visible from inside the vehicle but facing outside (refer to FIG 2).

FIG 2
