

# Full-HD Dash Camera

with 1.5" LCD Screen, GPS & WiFi

Record every aspect of your time behind the wheel with the Dashmate DSH-890. The GPS logger records your speed and location of your trip which you can playback alongside your recorded footage with the included Dashmate PC Software.

The built in WiFi allows you to connect your smartphone to the DSH-890, giving you the ability to transfer and review your recorded footage.

Dashmate DSH-890 App can be downloaded from the Apple App Store and Google Play Store.

## 1080P RESOLUTION

record your journey in full high definition, recording all the details on the road.

## GPS LOGGER

the built in GPS logger records your journey which can then be mapped out alongside your footage with the included software.

## G-SENSOR

detects when there is an impact on your vehicle and saves the footage so it is not recorded over.

## LOOP RECORDING

records over the oldest video file making sure you don't run out of storage space when you need it.

## WIFI CONNECTIVITY

allows you to connect your smartphone to the DSH-890, giving you the ability to transfer and review your recorded footage.

## 1.5" SCREEN

allows for easy navigation of menus and playback.

## 150° FOV

the wide angle lens brings all details on the road into frame.

## MOTION DETECTION

will stop the Dash Camera from recording when no movement is detected.
